ABOUT ISAPS

Founded in 1970, the International Society of Aesthetic Plastic Surgery (ISAPS) is the world's leading professional body for board-certified aesthetic plastic surgeons.

Regarded as the leading global authority on aesthetic and cosmetic surgery, ISAPS' threefold mission is to offer Aesthetic Education Worldwide®, to provide accurate information to the public, and to promote patient safety.

ISAPS membership includes the world's best and most respected reconstructive and aesthetic plastic surgeons in over 117 countries. Through its rigorous membership requirements, ISAPS plastic surgeons are considered to be among the most qualified surgeons in their respective countries. Furthermore, ISAPS has become the gold standard for providing continuing aesthetic education to its members, providing training, and sponsoring scientific meetings around the world.

A full list of ISAPS plastic surgeons can be found online at www.isaps.org.

2023 ISAPS INTERNATIONAL SURVEY ON AESTHETIC/COSMETIC PROCEDURES PERFORMED IN 2022

METHODOLOGY

Survey participants completed a questionnaire that primarily focused on the number of specific surgical and non-surgical procedures performed in 2022, along with some ancillary questions related to surgeon demographics and the prevalence of medical tourism.

The International Society of Aesthetic Plastic Surgery (ISAPS) issued an invitation to participate in the study to approximately 25,000 contacts in its proprietary database. In addition, a request was made that all National Societies encourage their members/constituents to take part in the survey. Data from a total of 1,103 plastic surgeons were compiled for this survey.

Final figures have been projected to reflect international statistics and are exclusively based on the estimated number of plastic surgeons actively practicing in each country and the respondent sample. This International Survey is focused on physicians who are board certified (or national equivalent) plastic surgeons.¹

To aid in tallying the worldwide estimate of plastic surgeons, representatives from National Societies provided recent counts for 96% of the 53,220 total estimated plastic surgeons. For those cases in which the National Society did not provide its country's total, a regression model was used to estimate the number of plastic surgeons in the country based on its population size and Gross Domestic Product.

The Aesthetic Society provided special assistance to this year's study by permitting the use of its national statistics, which were compiled from its

Aesthetic Neural Network (ANN) database. The ANN database includes detailed statistics on 200 U.S.-based practices. We appreciate their continued support of this international research effort.

Studies such as this must often address outlying responses. Though the outlying values may be legitimate, their presence can distort the averages, which provide the basis of the estimated projections. Significant outliers in this survey were adjusted in order to protect the reasonableness of the extrapolated values. Additional standard data editing procedures were followed to ensure responses met survey guidelines. All reported data values have been analyzed for statistical reasonableness.

Country-specific data are only shown for those countries that provided a sufficient survey response for the figures to be considered valid. No adjustments other than standard data editing procedures were applied to country-specific results. The *International Survey on Aesthetic/Cosmetic Procedures Performed in 2022* was compiled, tabulated, and analyzed by Industry Insights, Inc. (www.industryinsights.com), an independent research firm based in Columbus, OH. The survey leader was Scott Hackworth, a CPA and data scientist who along with his firm has conducted various forms of research on trends in aesthetic plastic surgery for more than 30 years.

¹ It is important to note that Japan's figures were independently fielded and provided by Kotaro Yoshimura, M.D., Professor and Chair of the Department of Plastic Surgery, Jichi Medical University. Dr. Yoshimura expanded his sample beyond plastic surgeons, which could impact comparability among Japan and other listed countries.

HIGHLIGHTS

OF THE INTERNATIONAL SURVEY ON
AESTHETIC/COSMETIC PROCEDURES
PERFORMED IN 2022

2022 STATISTICS AT A GLANCE

Top 5 surgical procedures worldwide

absolute numbers and changes compared to 2021

1. Liposuction	2,303,929	procedures	+21.1%
2. Breast Augmentation	2,174,616	procedures	+29.0%
3. Eyelid Surgery	1,409,103	procedures	-2.6%
4. Abdominoplasty	1,180,623	procedures	+19.1%
5. Breast Lift	955,026	procedures	+22.2%

Top 5 surgical procedures for women

1. Breast Augmentation	2,131,976	procedures
2. Liposuction	1,937,995	procedures
3. Eyelid Surgery	1,096,152	procedures
4. Abdominoplasty	1,076,945	procedures
5. Breast Lift	955,026	procedures

Top 5 surgical procedures for men

1. Liposuction	365,935	procedures
2. Eyelid Surgery	312,950	procedures
3. Gynecomastia	305,340	procedures
4. Rhinoplasty	239,971	procedures
5. Fat Grafting - Face	126,493	procedures

Top 5 non-surgical procedures worldwide

absolute numbers and changes compared to 2021

1. Botulinum Toxin	9,221,419	procedures	+26.1%
2. Hyaluronic Acid	4,312,037	procedures	-18.3%
3. Hair Removal	1,798,253	procedures	-2.1%
4. Chemical Peel	844,616	procedures	+57.9%
5. Non-Surgical Fat Reduction	778,716	procedures	+6.5%

Top 5 non-surgical procedures for women

1. Botulinum Toxin	7,850,924	procedures
2. Hyaluronic Acid	3,740,777	procedures
3. Hair Removal	1,517,217	procedures
4. Chemical Peel	701,864	procedures
5. Non-Surgical Fat Reduction	642,067	procedures

Top 5 non-surgical procedures for men

1. Botulinum Toxin	1,370,495	procedures
2. Hyaluronic Acid	571,260	procedures
3. Hair Removal	281,036	procedures
4. Chemical Peel	142,752	procedures
5. Non-Surgical Fat Reduction	136,650	procedures
