THE AMERICAN SOCIETY
FOR AESTHETIC PLASTIC SURGERY

Welcome FROM THE *President*

WELCOME TO THE GREATEST AESTHETIC EDUCATION ON EARTH

On behalf of the International Society of Aesthetic Plastic Surgery (ISAPS), it gives me great pleasure to invite you to our 24th Biennial Global Congress in beautiful Miami Beach, Florida, an international gateway city where the fusion of beauty, aesthetics and international culture is like nowhere else in the world.

This congress to be held at the newly renovated Miami Beach Convention Center. We are honored to bring you 393 of the absolute best world-class faculty representing 50 countries in an innovative, exciting scientific program that is both cutting edge and very diverse, covering all aspects of aesthetic surgery and cosmetic medicine for you and your entire staff.

This biennial will feature a multidisciplinary faculty presenting their work in two concurrent clinical sessions, a full day of cadaver dissection classes on face, nose, breast and labiaplasty, sixty-four Master Classes, ISAPS Business School, ISAPS Skin Care, a Residents and Fellows Forum, our first Women Surgeons' Symposium and daily Free Paper sessions.

Simultaneous translation will be provided in Portuguese and Spanish and session recordings will insure that you can review presentations you are not able to attend so that you don't miss a minute of this amazing educational event.

I selected South Beach, a special neighborhood of Miami Beach, as a perfect family location to be enjoyed by colleagues from North and South America, Europe, Africa, Asia – in short, from all parts of the world. The social events will be amazing and fun to make your week in South Beach a memorable one.

Review this brochure and register today! Bring your staff for the Business School and Skin Care tracks that will parallel the scientific sessions during the entire congress.

I welcome you to join the ISAPS family for our greatest aesthetic education event in 2018. I promise you this will be the best, most comprehensive and world-class congress you have ever attended.

I look forward to seeing you in South Beach.

Renato Saltz, MD, FACS
2018 Congress President

CONGRESS SUMMARY

JOINT PROVIDERSHIP

This activity has been planned and implemented in accordance with the Essentials Areas and Elements of the Accreditation Council for Continuing Medical Education through the joint providership of the American Society for Aesthetic Plastic Surgery, Inc. and the International Society of Aesthetic Plastic Surgery. The American Society for Aesthetic Plastic Surgery, Inc. is accredited by the ACCME to provide continuing medical education for physicians.

The American Society for Aesthetic Plastic Surgery Inc. designates this live activity for a maximum of **41.5 AMA PRA Category 1 Credits™**. The Scientific Sessions are designated for **24.5** credits. An additional **17** credits are designated for special seminars and optional courses. Earn up to **41.5** CME credits by attending a course in every time frame offered and the entire Scientific Sessions. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Credit hours are subject to program changes.

Of the **41.5** credits, **3** credit hours have been identified as programming dedicated to patient safety related topics and will satisfy Patient Safety CME requirements.

GENERAL INFORMATION

Banking

Most banks are open Monday through Friday from 9am to 5pm. There are even some that are open on Saturdays, but with limited hours (e.g., 9am – 1pm). Be sure to check the bank's website for specific times.

Automated Teller Machines (ATMs) are readily available and usually charge you the lowest rate.

Car Rental & Parking

Car rentals are available at the Miami International Airport. We recommend reserving a car early. Hotel parking (self and/or valet) is usually available, for a daily parking cost that varies with each hotel.

Another option is to use Lyft or Uber to get around town. You can use Lyft Fare Estimate or Uber Fare Estimate to estimate the cost of your fares before you ride.

Climate

Miami has a tropical climate. Temperatures during the Miami Congress are expected to range from 70-80 degrees Fahrenheit (21-26 degrees Celsius). The rainy season can last through the end of October, so be sure to pack accordingly.

Congress Attire

During the Congress sessions, we recommend business casual attire. Bring a Halloween costume for the welcome reception and plan to wear a comfortable ensemble for the beach party - flip flops are recommended.

Currency Exchange

The US monetary unit is the dollar. The rate of exchange varies every day. We recommend using a currency converter in your mobile phone to help determine how your national currency compares to the US dollar at any time. Personal checks drawn on foreign banks are not accepted.

You can change currency at Miami International Airport or any ATM machine which will offer a better rate. Most places accept credit cards such as MasterCard, Visa, American Express and Discover.

If credit cards are not accepted, the establishment will usually inform you with a sign at the door or near the register, or your waiter will tell you before you order your meal.

Disabled Facilities

If you have special needs or require disability-specific facilities, please let us know.

Electricity

US electricity is 110 volts, AC. Outlets have a 3-pin plug. We advise you to purchase a plug adapter and transformer beforehand.

Insurance

For your peace of mind, we strongly recommend that you obtain travel and international health insurance prior to your travels to the US.

Liability

Congress organizers are not liable for personal accidents, losses of or damage to any private property of registered attendees or any accompanying persons during the Congress.

Please make your own arrangements with respect to personal insurance.

Official Language

The official language of ISAPS is English, but we will have translation headsets available in Spanish and Portuguese.

Safes & Safe Deposit Boxes

Most hotels provide a safe in every room. Instructions are usually provided to allow you to create a personal code to access the safe. Be sure to read the disclaimer card provided, upon locking your belongings.

In most cases, hotels are limited in their liability for your personal belongings. Additionally, many hotels provide safe deposit boxes. Inquire at the front desk about availability.

Telephone Calls

The cost of phone calls from the hotel, especially international calls, is expensive. We advise that you use your cell phone with international calling capabilities instead.

Tipping

In the US, it is customary to provide a tip for service in hotels, taxis, and restaurants. Tips can range between 15%-20% of your total bill, at your discretion, although some restaurants automatically include a tip for parties of five people or more. In such instances, the tip will appear on your bill, and no additional tip is necessary (though it is welcomed).

Travel Disclaimer

In the event of any travel disruptions, Congress organizers will not be held responsible for any loss incurred by any registrant or family member either en route to or from the Congress. By registering for the Congress, participants accept full responsibility for their own travel arrangements and any consequences for themselves and for all accompanying persons.

Visas & Passports

Most travelers will be admitted into the United States with a valid passport. However, not all countries are exempt from a visa requirement. Please check well in advance to determine whether you will need a visa, and begin your application process at least three months before the Congress.
