ABOUT ISAPS

Founded in 1970, the International Society of Aesthetic Plastic Surgery (ISAPS) is the world's leading professional body for board-certified aesthetic plastic surgeons.

Regarded as the leading global authority on aesthetic and cosmetic surgery, ISAPS' threefold mission is to offer Aesthetic Education Worldwide®, to provide accurate information to the public, and to promote patient safety.

ISAPS membership includes the world's best and most respected reconstructive and aesthetic plastic surgeons in over 117 countries. Through its rigorous membership requirements, ISAPS plastic surgeons are considered to be among the most qualified surgeons in their respective countries. Furthermore, ISAPS has become the gold standard for providing continuing aesthetic education to its members, providing training, and sponsoring scientific meetings around the world.

A full list of ISAPS plastic surgeons can be found online at www.isaps.org.

2024 ISAPS INTERNATIONAL SURVEY ON AESTHETIC/COSMETIC PROCEDURES PERFORMED IN 2023

METHODOLOGY

Survey participants completed a questionnaire that primarily focused on the number of specific surgical and non-surgical procedures performed in 2023, along with some ancillary questions related to surgeon demographics and the prevalence of medical tourism.

The International Society of Aesthetic Plastic Surgery (ISAPS) issued an invitation to participate in the study to approximately 25,000 plastic surgeons whose contact information is housed in its proprietary database. In addition, a request was made that all National Societies encourage their members/constituents to take part in the survey. Data from more than 1,600 plastic surgeons were compiled for this survey.

Final figures have been projected to reflect international statistics and are exclusively based on the estimated number of plastic surgeons actively practicing in each country and the respondent sample. This international survey is focused on physicians who are board-certified (or national equivalent) plastic surgeons.

To aid in tallying the worldwide estimate of plastic surgeons, representatives from National Societies provided recent counts for 96% of the 55,103 total estimated plastic surgeons. For those cases in which the National Society did not provide its country's total, a regression model was used to estimate the number of plastic surgeons in the country based on its population size and Gross Domestic Product.

The Aesthetic Society, in collaboration with CosmetAssure, provided special assistance to this year's study by permitting the use of its national statistics. Their information includes detailed statistics on more than 600 US-based surgeons. We appreciate The Aesthetic Society's continued support of this international research effort.

Studies such as this must often address outlying responses. Though the outlying values may be legitimate, their presence can distort the averages, which provide the basis of the estimated projections. Significant outliers in this survey were adjusted in order to protect the reasonableness of the extrapolated values. Additional standard data editing procedures were followed to ensure responses met survey guidelines. All reported data values have been analyzed for statistical reasonableness.

Country-specific data are only shown for those countries that provided a sufficient survey response for the figures to be considered valid. No adjustments other than standard data editing procedures were applied to country-specific results.

The following procedures were included in the survey but are not represented in the accompanying tables due to an insufficient number of surgeons providing these treatments: Hair Transplantation, Penile Enlargement, Poly-L-Lactic Acid Injections, Polymethylmethacrylate Fillers, Dermabrasion, Microdermabrasion, Photo Rejuvenation, Tattoo Removal, Treatment of Leg Veins, and Sclerotherapy.

The International Survey on Aesthetic/Cosmetic Procedures Performed in 2023 was compiled, tabulated, and analyzed by Industry Insights, Inc. (www.industryinsights.com), an independent research firm based in Columbus, OH. The survey leader was Scott Hackworth, a CPA and data scientist who along with his firm has conducted various forms of research on trends in aesthetic plastic surgery for more than 30 years.

HIGHLIGHTS

OF THE INTERNATIONAL SURVEY ON
AESTHETIC/COSMETIC PROCEDURES
PERFORMED IN 2023

2023 STATISTICS AT A GLANCE

Top 5 surgical procedures worldwide

absolute numbers and changes compared to 2022

1. Liposuction	2,237,966	procedures	-2.9%
2. Breast Augmentation	1,892,777	procedures	-13.0%
3. Eyelid Surgery	1,746,946	procedures	+24.0%
4. Abdominoplasty	1,153,539	procedures	-2.3%
5. Rhinoplasty	1,148,559	procedures	+21.6%

Top 5 non-surgical procedures worldwide

absolute numbers and changes compared to 2022

1. Botulinum Toxin	8,877,991	procedures	-3.7%
2. Hyaluronic Acid	5,564,866	procedures	+29.1%
3. Hair Removal	1,608,447	procedures	-10.6%
4. Non-Surgical Skin Tightening	831,583	procedures	+13.3%
5. Non-Surgical Fat Reduction	631,212	procedures	-18.9%

Top 5 surgical procedures for women

1. Liposuction	1,898,880	procedures
2. Breast Augmentation	1,868,360	procedures
3. Eyelid Surgery	1,353,566	procedures
4. Abdominoplasty	1,033,264	procedures
5. Breast Lift	903,266	procedures

Top 5 non-surgical procedures for women

1. Botulinum Toxin	7,526,993	procedures
2. Hyaluronic Acid	4,894,101	procedures
3. Hair Removal	1,305,868	procedures
4. Non-Surgical Skin Tightening	695,935	procedures
5. Non-Surgical Fat Reduction	501,511	procedures

Top 5 surgical procedures for men

1. Eyelid Surgery	393,380	procedures
2. Gynecomastia	352,302	procedures
3. Liposuction	339,086	procedures
4. Rhinoplasty	290,492	procedures
5. Fat Grafting - Face	127,769	procedures

Top 5 non-surgical procedures for men

1. Botulinum Toxin	1,350,999	procedures
2. Hyaluronic Acid	670,765	procedures
3. Hair Removal	302,579	procedures
4. Non-Surgical Skin Tightening	135,648	procedures
5. Non-Surgical Fat Reduction	129,701	procedures
