

National Secretaries' **DIRECTORY 2025**

WWW.ISAPS.ORG

Introduction

Dear National Secretaries and Assistant National Secretaries,

To our veteran members of the National Secretary team, thank you for your continued commitment to ISAPS. To our new National Secretaries and Assistant National Secretaries, a very warm welcome. We are delighted to have you join our ISAPS family.

At present, ISAPS is proud to have 140 National Secretaries and Assistant National Secretaries representing 91 countries worldwide. Being elected by ISAPS members in your country is a true testament to your commitment and leadership within the field. You should be proud of the essential part you play in helping ISAPS continue to grow and inspire the global aesthetic plastic surgery community.

As a National Secretary, you play a vital role in supporting the ISAPS Executive Office and Board of Directors by serving as the key link between ISAPS and the members in your country. You promote ISAPS membership, maintain close relationships with your National Society, contribute to meaningful global surveys, and support ISAPS's collaborative international mission to advance our shared goal of education, patient safety, and excellence.

This National Secretaries Directory is designed to be a valuable resource, connecting our international network of leaders. It allows us to see who represents each country, encourages collaborations and communication with colleagues, and fosters the collaborative spirit that makes our ISAPS family so special. The Directory celebrates our connections, shared goals, and collective passion for aesthetic plastic surgery.

Thank you all for your dedication and enthusiasm in representing ISAPS. We wish you continued success in your roles and look forward to seeing all you achieve in the years ahead.

Arturo Ramírez-Montañana MD
ISAPS President

Botox (Botulinum Toxin), Fillers (Body or Genital Region), Fillers (Facial), Laser, Radiofrequency assisted Submental Liposuction.

TEACHING INVOLVEMENT WITH PLASTIC SURGERY RESIDENTS:

Rotation of residents for Aesthetic Training.

ABOUT ME:

I was born in Tirana, Albania in 1980 and received my education in my country until the year 1998. That year I had the chance to receive a scholarship for the prestigious Military Academy in GATA in Ankara, Turkey. That was where I finished my Medical Degree and Residency Training. During my medical school years, I was awarded a prize as the most successful international student ranking third in my year among all my Turkish and international peers. As such I had the chance to pick my residency which was Plastic Surgery as my first choice. I always had a passion for surgery, I fell in love with the operation theatre the first time I stepped in one and haven't stopped loving it since. My training was intense, it was a time of war in the East of Turkey and as the Main Military Hospital we received complex wounds daily. I also had the chance to work for one year in the biggest burn centre in Turkey and these experiences have shaped me as a plastic surgeon, but also taught me compassion, hard work and the magic that our profession can provide in a life.

I have been working in Tirana since 2011. My main focus has been aesthetic surgery for the last 10 years. I had the chance to win the ASPS International Fellow in 2018 and have been shadowing Dr. Guyuron in Cleveland and many surgeons in UCLA. Along with my peers we formed our national society in 2020, and I was elected President. We have been able to become global partners with ISAPS, ASPS and lastly ICOPLAST. One of our residents has already had the chance to become an international fellow with ISAPS. For our second year we have organized the Tirana Aesthetic Surgery Congress along with my colleagues from Turkey, which remains a big part of who I am and my second home.

I have been serving as a National Secretary for my country for about three years and have found such a warm and welcome family in ISAPS. I am certain I will remain very active even after my term is due. Education and Surgery are my two main passions in life. I am married with a fellow surgeon, and we have two beautiful kids.

HOBBIES AND INTERESTS OUTSIDE SURGERY:

Apart from surgery my hobbies include jazz music, movies and traveling. I have developed a love for cycling in the last years.

ISAPS ROLES:

National Secretary for Albania.

NATIONAL SOCIETY ROLES:

President.

Argentina

National Secretary

TOP NON-SURGICAL PROCEDURES:

Botox and Fillers Applications

ABOUT ME:

I graduated in Medicine from the Federal University of Rio Grande do Sul (UFRGS) in 1990 and completed specializations in General Surgery, Oncological Surgery and Plastic Surgery. Throughout my career, I have been deeply committed to advancing scientific knowledge. I hold a Master's Degree in Surgery, have authored several scientific articles and books, and have organized numerous academic and professional events. I am also a proud former military physician, having served in multiple leadership positions, including Head of the Plastic Surgery Service and General Director of the Military Brigade Hospital in Porto Alegre, ultimately achieving the rank of Lieutenant Colonel.

HOBBIES AND INTERESTS OUTSIDE SURGERY:

A balanced life is essential to me. I cherish the time I spend with my family and our travels to new places. To maintain a healthy lifestyle, I stay active through sports and swimming.

ACADEMIC POSITIONS HELD:

Opinion leader at Apex Medical in the use of Renuvion/JPlasma technology.

TEACHING INVOLVEMENT WITH PLASTIC SURGERY RESIDENTS:

Associate professor at the Carlos Chagas Higher Institute of Health Sciences, Rio de Janeiro, Brazil.

ABOUT ME:

Dr. John Edwin García Serna, plastic and reconstructive surgeon, who carries out his independent professional activity at the Corpus & Rostrum clinic in the city of Cali, Colombia.

He studied Medicine at Guayaquil University, Ecuador, where he graduated in 2002. He studied his Postgraduate Degree in Aesthetic and Reconstructive Plastic Surgery at the Santa Casa de Misericordia Hospital in Rio de Janeiro, Brazil, under the coordination of Dr. Ricardo Cavalcanti Ribeiro, with the support of the Medical Graduate School of the Santa Casa De Misericordia Hospital, (Cesanta) culminating in January 2010. Member of the Colombian Society of Plastic Surgery SCCP, Member of the federation Iberolatinoamericana de Cirugía Plástica FILACP, Member of the International Society of Plastic Surgery ISAPS. Member of the American Society of Plastic Surgeons ASPS. General Physician title validated in Europe in 2019. In 2018 he was certified for the use of RENUVION and in 2022 certified as a Physician Mentoring Program (PMP) as an expert in training the use of this technology. He certified by The American Board of Surgical Assistants as a surgical assistant (SA-C) in the year 2023.

Specialized in body contouring surgery, using advanced technologies, such as power technology (microair), ultrasound technology (Soring), and skin tightening technology (Renuvion Jplasma). Thanks to the experience, he has managed to change the paradigms of plastic surgery. Performing plasties without scars, avoiding cuts and sequelae of scars in different areas of body; improving safety protocols, results and reducing the recovery time of their patients with the application of these technologies. He published medical and plastic surgery articles in various national and international journals of the specialty. He has been invited to share his knowledge as a speaker at the ISAPS World Congress in Istanbul in 2022; Athens in 2023; Cartagena in 2024; and Singapore in 2025.

HOBBIES AND INTERESTS OUTSIDE SURGERY:

Amateur soccer player.

ABOUT ME:

Dr. Angelos Karatzias is a distinguished Plastic, Reconstructive & Aesthetic Surgeon and the Founder and Clinical Director of K Clinic, a premier medical center in Nicosia specializing in body contouring, lipoedema surgery, aesthetic medicine, and advanced wound care. He is a Fellow of the European Board of Plastic Reconstructive and Aesthetic Surgery (FEBOPRAS) and has been practicing as a board-certified surgeon since 2016.

Internationally recognized as a Key Opinion Leader (KOL) and Trainer for both TEOXANE Laboratories and Apyx Medical (Renuvion), Dr. Karatzias is actively involved in the education of aesthetic professionals worldwide. He serves as National Secretary for Cyprus to the International Society of Aesthetic Plastic Surgery (ISAPS) and is a member of the American Society for Aesthetic Plastic Surgery (ASAPS). He also holds a master's degree in Wound Healing and Tissue Repair from the University of Cardiff and serves as Medical Director of AKP Wound Healing and Vice President of the Cyprus Wound Healing Society (CWMS).

HOBBIES AND INTERESTS OUTSIDE SURGERY:

Dr. Karatzias values balance between professional responsibilities and personal well-being. In his free time, he enjoys staying physically active and regularly engages in fitness and exercise, believing that physical health supports mental clarity and focus. He is a passionate football fan and follows matches closely. Above all, he cherishes spending quality time with his family, which he considers the cornerstone of his personal life. His interests also include travel, photography, and reading books on personal development and innovation in medicine.

TOP NON-SURGICAL PROCEDURES:

HA Fillers.

TEACHING INVOLVEMENT WITH PLASTIC SURGERY RESIDENTS:

4 residents of plastic surgery.

ABOUT ME:

Pavel Kurial, M.D., has been a board-certified plastic surgeon since 2004. He obtained his medical degree at the Faculty of Medicine of the Palacky's University in Olomouc in Czech Republic in 1997. Subsequently, in the Ceske Budejovice Hospital, Inc., he devoted himself to general surgery in which he passed the first-degree certification in 2000. His interest in microsurgery led him to plastic surgery. He performed his first tissue transfers in reconstruction of defects and replantation of limb parts before his attestation in plastic surgery, which he successfully passed in 2004. Since then, he has performed hundreds of microsurgical procedures. Currently, Pavel Kurial, M.D., works as a deputy chief of plastic surgery at the Ceske Budejovice Hospital, Inc. and is mainly engaged in aesthetic surgery. He also works in private practice at the CB Clinic Hluboka and Vltavou and the Institute of Medical Cosmetics in Ceske Budejovice. Thanks to the new techniques he learns on foreign courses, and surgeries he performs on daily basis, he acquires the skills with which he achieves results that place him at the forefront of plastic aesthetic surgery in the Czech Republic and abroad. He regularly lectures at congresses in the Czech Republic and abroad and is happy to pass on his experience to younger colleagues in the team. He is a surgeon passionate about his field, with ambitions to achieve perfect results, and a great deal of respect for human personality.

HOBBIES AND INTERESTS OUTSIDE SURGERY:

Windsurfing, sailing, guitar.

TOP SURGICAL PROCEDURES:

Breast lift, body contouring.

TOP NON-SURGICAL PROCEDURES:

Botox, dermal fillers.

ABOUT ME:

Dr. André Salval is a medical doctor and surgeon, specialized in Plastic, Reconstructive, and Aesthetic Surgery. He began his studies in Medicine and Surgery at the University of Milan, where he graduated with top honors in 2009, and later attended the School of Specialization in Plastic, Reconstructive, and Aesthetic Surgery at the University of Genoa, completing his training in 2015. Dr. André Salval has been a registered member of the Order of Physicians and Surgeons of the Province of Milan since 2013, under registration number 0000043242.

After completing his studies in Italy, Dr. Salval further refined his surgical skills abroad. At the University of Zurich, he deepened his knowledge in experimental microsurgery; at the Quirón Clinic in Barcelona, he specialized in aesthetic surgery of the face and breast; at the Töölö Hospital of the University of Helsinki in Finland, he worked on post-oncological reconstructive and microsurgical procedures as well as gender reassignment surgery; and at the Hospital das Clínicas of Campinas, University of São Paulo in Brazil, he participated in a university exchange program.

In Italy, he has worked in prestigious healthcare institutions such as the Niguarda Ca' Granda Hospital in Milan—where he served in the Burn Center and the Department of Plastic Surgery—and the private Humanitas San Pio X Clinic in Milan, where he focused mainly on post-bariatric surgery.

Thanks to these professional experiences, Dr. André Salval has performed more than 1,500 Plastic, Reconstructive, and Aesthetic Surgery procedures, gaining significant expertise not only in the operating room but also in outpatient procedures and Aesthetic Medicine.

HOBBIES AND INTERESTS OUTSIDE SURGERY:

I'm an active person, I love doing sports outdoors, like hiking, trekking, free water swimming and alpine climbing. DIY hobbies, reading classics. Loved writer: Louis-Ferdinand Céline.

ABOUT ME:

Doctor de Angelis, M.D., Ph.D. is a Plastic Surgery Specialist qualified in Naples, Italy in 2005, with a Ph.D. in Regenerative surgery. She is an active member and Assistant of the National Secretary of the International Society of Aesthetic Plastic Surgery (**ISAPS**), of the Italian Society of Aesthetic Plastic Surgery (**AICPE**) and Reconstructive Surgeons (**SICPRE**) and of the American Society for Laser Medicine and Surgery (**ASLMS**).

She has been working in the field of Laser surgery and aesthetic medicine since 2001, involved in many clinical and experimental trials concerning new lasers technology research and new rejuvenating approach. Thanks to her work Palomar non ablative erbium glass 1540 obtained in 2010 the FDA approval for a revolutionary stretch marks treatment. In the last 15 years she actively worked as Key Opinion Leader for many companies, she is internationally invited Speaker and trainer for Anatomy based science, fillers and fat injection techniques, alone or in combination with laser for facial rejuvenation.

She is the inventor of the CPA® method for facial rejuvenation, a non-surgical method based on sequential filler injections, and many other combined techniques.

ABOUT ME:

Dr. Firas Hamdan, MD, FACS, is a well-recognized Plastic Surgeon, known as “Dr Highness” and owner of Highness Clinics operating in Beirut and Dubai.

Dr Hamdan was elected as ISAPS National Secretary for Lebanon 2023 -2027.

He obtained his MD from the American university of Beirut in 1991, after which completed all his training in the USA.

General Surgery Residency: Georgetown University (1991-1993)

Otolaryngology and Facial Plastic Surgery: University of Tennessee (1993-1997) and became board certified in 1998.

Fellowship in Plastic and Cosmetic surgery training at the University of Florida (1998-2002).

His goal is emphasizing the inner beauty and not the “operated look” that many patients wish to avoid. Having this vast experience, Dr Firas, visualized a centre that will treat his clients both for their looks and “Outer Beauty”, and also for their lifestyle and “Inner beauty”, and therefore “Stay young and beautiful Forever” became his Moto.... and Highness Beauty Clinics was created to deliver this vision with the promise to treat all clients with the same passion and let each of them feel as “Highness” in the world of Beauty Clinics. In addition to his clinical practice, Dr Hamdan continues to be involved in the leadership role in the International professional organizations relating to plastic and cosmetic surgery.

TEACHING INVOLVEMENT WITH PLASTIC SURGERY RESIDENTS:

Actively involved in registrar training and supervision at Wits University, including academic teaching, operative instruction, and exam preparation. I am a supervisor for the Master of Medicine Degree in Plastic Surgery, and Training Program Director for the largest registrar program in the continent.

ABOUT ME:

I am a South African-trained, Greek Cypriot, Plastic and Reconstructive Surgeon with a strong focus on aesthetic surgery, complex reconstructive procedures, and surgical innovation. Following completion of a microsurgical fellowship at Guy's and St Thomas' NHS Trust in London, I returned to South Africa where I now lead the largest academic plastic surgery division on the continent. I maintain a dual academic and private practice, with interests in deep plane facelifts, breast and body contouring. My academic practice is in cleft surgery, complex reconstructive microsurgery. I am actively involved in humanitarian work through Operation Smile and Smile Foundation, with a commitment to improving access to cleft and craniofacial care across Africa.

HOBBIES AND INTERESTS OUTSIDE SURGERY:

I have a long-standing interest in medical innovation, particularly in developing solutions that improve surgical outcomes and patient experience. I'm passionate about advancing longevity science and integrative wellness. Outside of medicine, I enjoy exploring my Greek heritage, including language, history, and cuisine, and spending time on the islands of the Aegean and Cyprus.

Craniofacial Reconstructive surgery training, Cosmetic surgery training.

ABOUT ME:

I am a board-certified plastic surgeon specializing in craniofacial trauma reconstruction. With extensive experience in craniofacial anatomy and various facial incisions and approach, I naturally transitioned into the field of facial aesthetic surgery. My practice combines the precision of reconstructive techniques with the artistry of cosmetic enhancement, allowing me to deliver both functional and aesthetically pleasing results.

Currently, I serve as the Director of a leading Aesthetic Center, where I oversee a multidisciplinary team and provide advanced facial cosmetic procedures. I am also an Executive Board Member of the Taiwan Society of Aesthetic Plastic Surgery and serve as the National Secretary for Taiwan in the International Society of Aesthetic Plastic Surgery (ISAPS). These roles enable me to contribute to the advancement of aesthetic surgery on both a national and international level through education, collaboration, and innovation.

My clinical philosophy emphasizes patient safety, natural outcomes, and evidence-based techniques. I am passionate about integrating reconstructive principles into cosmetic surgery to achieve long-lasting and harmonious results. I continuously participate in global academic exchanges to stay at the forefront of aesthetic plastic surgery, and I remain committed to training the next generation of surgeons in both reconstructive and aesthetic fields.

HOBBIES AND INTERESTS OUTSIDE SURGERY:

Table tennis player, Soft baseball player, Running, Mountain Climbing.
