Description of Fellowship:	We are happy to provide a fellowship as part of the ISAPS Expert program. My department of plastic surgery was founded 2003 and we cover the entire range of plastic surgery. With around 2300 surgeries every year, the fellow will be exposed to the newest aspects in aesthetic plastic surgery including facial aesthetic surgery techniques, rhinoplasty, and secondary procedures; aesthetic and reconstructive breast surgery (just the right mix of microsurgical breast and implant techniques); and body contouring. In addition, we have a broad experience in non-invasive facial treatment with radiofrequency, fillers and botox™. As we started the departments from scratch, a fellow can profit in side aspects of marketing and patient consulting. Our residency program is known for hands-on training and treating patients with increasing responsibilities. We welcome visitors for short or long-term participation.
